

GROUND SCHOOL PROGRAMS

Many of our students are enrolled in our Jeppesen training programs. These 'work at your own pace' programs allow you to prepare for your flight lessons when the time is favorable for you. For those of you who would like a more structured classroom training program, we now offer a 24 hour ground school program for the Private and Instrument Rating. These classes will be offered twice a week in the evenings. Classes are given by one of our FAA certified flight instructors at our ISP location. To enroll, or if you have questions, please give Jim or Don a call. Also, if you know anyone else that you think would benefit from these 4-week PVT or IFR ground schools, please contact us or inform them of our class.

PRIVATE GROUND SCHOOL

FOUR WEEK COURSE: offered quarterly based on demand
MONDAY and WEDNESDAY, 6:00 PM to 9:00 PM at ISP

This ground course is based on the Jeppesen Private Pilot Manual. A copy will be required before starting the course. Students will obtain a full 24 hours of ground from our Certified Flight and Ground Instructor using various power-point presentations. Students will learn a variety of subjects from aerodynamics, flight controls, aircraft instrumentation, flight maneuvers, traffic pattern, runway markings, ATC and cross country planning. Stage quizzes and a final exam will be given during the course. A sign off for the FAA knowledge exam will be given by your instructor upon attaining a grade of 90% or more on two exams.

Note: Minimum of 3 students required.
\$349 for students enrolled in our curriculum
\$399 for non-MIAS enrolled students

INSTRUMENT GROUND SCHOOL

FOUR WEEK COURSE: offered quarterly based on demand
TUESDAYS and THURSDAYS 6:00 PM to 9:00 PM at ISP

This ground course is based on the Jeppesen Instrument Flying Handbook. A copy will be required before starting the course. Students will obtain a full 24 hours of ground from our Certified Flight and Ground Instructor using various power-point presentations. Students will learn a variety of subjects from airplane instruments, attitude flying, navigation, regs, ATC, approaches, aeromedical factors, weather, IFR flights, etc. Stage quizzes and a final exam will be given during the course. A sign off for the FAA knowledge exam will be given by your instructor upon attaining a grade of 90% or more on two exams.

Note: Minimum of 3 students required.
\$399 for students enrolled in our curriculum
\$449 for non-MIAS enrolled students
